OPENING OF ONE STUDENT INTERNSHIP FOR TWO MONTHS

One student internship is available for two months starting 01\textsuperscript{st} Dec till 31\textsuperscript{st} January 2020 under the SERB Project entitled “The impact of Heat Shock Factors in regulating heat stress induced epigenomic changes: a case study in flax (Linum spp.)” at the Biotechnology Unit of ICAR-CRIJAF, Barrackpore. The intern student must be undergoing a postgraduate in Biotechnology or any other related field of life sciences. He or she will be entitled to receive a consolidated student assistantship of Rs. Five thousand (Rs. 5000/-) per month for two months. No TA-DA or accommodation would be provided.

Students fulfilling the above criteria with a good understanding on molecular biology techniques may apply through email to the Principal investigator Dr. Dipnarayan Saha, Principal Scientist, ICAR-CRIJAF, Email: dipnarayan.saha@icar.gov.in latest by 28/11/2019 (Thursday) by clearly stating about their (i) current position and affiliation, (ii) a brief research interest (related to the above project) and (iii) required permission from the head of their department (in a letter head) to undergo the internship for the above period. No communications will be entertained further regarding the selection. The selected student will be informed through E-mail.
